Business Intelligence Developer
Home-Based

This is an exceptional opportunity to join our vibrant, rapidly evolving company as Business Intelligence Developer, supporting the implementation and delivery of a strategic BI roadmap which simplifies, standardises, and optimises the group-wide BI landscape.

Redde Northgate was formed in early 2020 following a successful merger, bringing together a broad mix of market-leading operating companies to become the UK's foremost integrated mobility solutions provider. High quality data and commercial insight is at the heart of our approach and we strive to continuously review how we deliver our services, the innovation opportunity we provide and our overall approach to the demands of our growing, corporate business.

Joining us in the early stages of our exciting journey, you will support to BI Development Manager by writing queries, building Data warehouse components and designing ETL process solutions which solve real-life business problems for our operational and leadership communities. Your technical knowledge, your ability to provide business-driven BI and your commitment to continuously improving our reporting have a direct impact in enabling the Company to achieve our operational and commercial objectives.

In short, this is an exciting opportunity in a busy, constantly evolving environment.

About you:

- You are an experienced BI and Reporting professional with a good understanding of SQL scripting and stored procedure experience (preferably supported by accredited training) gained in a BI and reporting development environment;
- You are an expert in designing BI solutions on the BI SQL Service Stack (e.g. DBE, SSAS, SSIS, SSRS) for use with MS SharePoint, Power BI or similar technologies;
- You have experience in dimensional warehousing and ETL;
- You have excellent data cleansing, quality, profiling, modelling, integration skills;
- You can demonstrate a good understanding of database architecture and database design;
- You work collaboratively with those around you proactively building exceptional working relationships with internal and external stakeholders – you are equally able to shape the decisions with well-informed views;

As Business Intelligence Developer, we offer you:

- A rewarding salary, reflecting your experience and specialist knowledge.
- Additional employee benefits (including employee assistance, life assurance, pension, discount schemes etc.)
- An exciting opportunity to help build new Group-wide ways of working with a broad range of like-minded peers and BI Specialists, all aiming for the same goal.

Be part of our future

If you would love to join our team as BI Developer we encourage you to find out more. Apply today by emailing your CV to apply@northgate-careers.com.
