Database Administrator
Home-Based

This is an exceptional opportunity to join our vibrant, rapidly evolving company as Database Administrator, taking responsibility for the integrity, security and performance of our databases and provide SOA solutions in partnership with our development teams.

Redde Northgate was formed in early 2020 following a successful merger, bringing together a broad mix of market-leading operating companies to become the UK's foremost integrated mobility solutions provider. High quality data and commercial insight is at the heart of our approach and we strive to continuously review how we deliver our services, the innovation opportunity we provide and our overall approach to the demands of our growing, corporate business.

Alongside the day-to-day administration, maintenance and fine tuning of our databases, we will also look to you to help develop our BI capability – working with BAs and System Analysts to identify issues and solve problems, undertaking QA for others work for database standards and supporting the wider IT community with database design and development tasks.

Your technical knowledge, your ability to enable the provision of commercially-focused, results-driven BI and your commitment to continuously improving our reporting have a direct impact in enabling the Company to achieve our operational and commercial objectives.

In short, this is an exciting opportunity in a busy, constantly evolving environment.

About you:

- You are an experienced DBA professional with a good understanding of SQL development and scripting tools (e.g. TSQL, PowerShell) gained in a similar environment;
- You have a proven background in database administration (e.g. back-ups, maintenance, performance monitoring and troubleshooting etc.) preferably supported by formal Microsoft accredited DBA training, or in other database technologies (e.g. Oracle).
- You have a detailed knowledge of the Microsoft SQL Server Stack including SSMS, SSAS, SSIS & SSRS;
- You are able to work collaboratively with a wide range of IT and Change peers (including infrastructure, development, business analyst and other resources) and can clearly communicate solutions to both technical and non-technical team members;
- It is highly desirable that you have some experience of Microsoft Dynamics AX, and or other modern ERP / business operating applications or exposure to Microsoft Azure SQL;

As Database Administrator, we offer you:

- A rewarding salary, reflecting your experience and specialist knowledge.
- Additional employee benefits (including employee assistance, life assurance, pension, discount schemes etc.)
- An exciting opportunity to help build new Group-wide ways of working with a broad range of like-minded peers and BI Specialists, all aiming for the same goal.

Be part of our future

If you would love to join our team as Database Administrator we encourage you to find out more. Apply today by emailing your CV to apply@northgate-careers.com.
